***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Lecain et al (WO 03/104884).

As to independent claim 1, Lecain et al teach an information display device, in which display media (particles or liquid powders) are sealed between opposed substrates, at least one substrate being transparent (page 16, line 22-page 17, line 31), and, in which the display media (particles or the liquid powders), to which an electrostatic field is applied, are made to move so as to display information such as an image (page 16, lines 22-page 17, line 31; page 20, line 3-30; page 24, line 38-page 25, line 22), characterized in that spacers are arranged on a surface of at least one substrate in a sealing agent arranging portion, which seals a space between at least one flexible substrate and the other substrate by a sealing agent (page 39, lines 6-29; page 41, line 25-page 42, line 12).

As to dependent claim 2, limitations of claim 1, and further comprising, Lecain et al teach wherein the spacers are manufactured simultaneously when partition walls for forming cells between the substrates are arranged on the substrate (page 16, line 22-page 17, line 31).

As to dependent claim 3, limitations of claim 1, and further comprising, Lecain et al teach wherein a total area of the spacers on the substrate is 0.5-50% of the sealing agent arranging portion on the substrate (page 40, lines 17-29).
